# OWS 2005 computer software

RADWAG®

Product description:

This software cooperates with weighbridges manufactured by 'RADWAG'. It is a part of weighing system, which is a supplement of our weighbridges, due to which the whole process of weighing vehicles is easier and takes much shorter time.

Designed for scales:

- terminal TMC

Functions:

- readout of data from scale and registration of results in the software
- registration of measurement data in a form of a file
- running random quantity of measurements
- printing the weighing tickets
- generation of reports from measurements
- data base of drivers, operators, materials and contractors
- registration of control measurements
- possibility of cooperation with barriers system and lights system
- possibility of cooperation with camera system for recording the situation on the scale
- cooperation with system controlling the wastes

Computer requirements:

- processor 1,2 GHz
- free 500 MB on hard drive
- RAM 256 MB (reccomended 512 MB)
- operation system Windows 2000/XP

* NOTE! RADWAG does not sell software "in box". Boxes presented on our Web-site are of virtual characteristic only, and they are not accessible with purchased software. The customer receives purchased software on a CD in special protective cover and the user manual as a brochure.
